

# Public Disclosure Statement (PDS)

---

Issuer: State of Israel – Government Public Key Infrastructure (GOV PKI)

Organization: Payment Financial Technologies

Effective Date: [Date – to be completed]

URL: [Company publication link – to be completed]

## 1. Purpose

This Public Disclosure Statement (PDS) provides a high-level summary of how Payment Financial Technologies uses digital certificates issued under the Israeli Government PKI (GOV PKI) framework to support secure Open Banking services.

## 2. Certificate Authority

All certificates used by Payment Financial Technologies for Open Banking are issued by the Government of Israel PKI (GOV PKI), under the regulatory authority of the Bank of Israel. The applicable Certificate Policy (CP) and Certification Practice Statement (CPS) are published and maintained by GOV PKI and are available at the following official links:

- Certificate Policy (CP): The applicable CP/CPS documents are maintained internally by GOV PKI. They will be referenced as soon as an official public version is published.
- Certification Practice Statement (CPS): The applicable CP/CPS documents are maintained internally by GOV PKI. They will be referenced as soon as an official public version is published.

## 3. Scope of Use

The certificates are strictly used for:

- Securing API communications with Israeli banks and financial institutions.
- Supporting Open Banking services in accordance with the directives of the Bank of Israel.
- Ensuring the confidentiality, integrity, and authenticity of financial data exchanged through these APIs.

## 4. Subscriber Obligations

Payment Financial Technologies commits to:

- Protecting private keys in accordance with GOV PKI security requirements.
- Using the certificates solely for their intended Open Banking purposes.
- Revoking certificates promptly in the event of compromise or misuse.

## 5. Compliance

This PDS does not replace the official CP or CPS of the Government of Israel PKI. Instead, it explains [Your Company]'s reliance on GOV PKI certificates within the Open Banking

ecosystem.
